

## 100% Confidence™ Early Childhood Education Parkour Program

### Overview:

American Parkour has put together a complete package of equipment, training, and curriculum for early childhood physical education. Our 100% Confidence™ Line of equipment is designed for small children to train in a safe environment learning balance, coordination, spatial awareness and basic motor functions as well as a host of social development skills.

## Kit Contents

### Each kit consists of:

- 1- Trapezoid Vault: 48" Long by 22" Tall - Is Storage for Small Parts
- 2- MultiCubes 22" With Rail Attachments
- 1- 100% Confidence™ Balance Beam 8' Long With Rubber Base
- 8- 100% Confidence™ Precision Trainers With Rubber Base
- 8- Lily pads - Shaped Rubber Jump Obstacles
- 1- 7' Rail Connector
- 1- Gear Bag -with Owner's Manual, Hex Wrench

## Storage

This kit is made to stay in a classroom where the MultiCubes act as functional furniture which children can sit on and become familiar with for every-day uses. The Trapezoid Vault Box has built in storage compartments to hold the 100% Confidence Precision Trainers and the Lilypads.

(Colors for illustration purpose only)

## The Versatile MultiCube

This unique cube design has a host of features that allow it to be used in a variety of ways, creating endless possibilities for children to explore movement.

- A single Cube has a flat surface for climbing and beginner vaulting techniques
- Cubes have a top lip to stack and hold firmly
- Two Cubes can be aligned to make a longer vaulting surface
- The Cubes each have two internal rail connectors for a variety of configurations

### **A Matter of Balance**

Balance is one of the most important fundamental skills for a child to practice and develop. Our 100% Confidence™ Parkour Kit gives kids an unlimited number of ways to develop balance and confidence safely and progressively.

Beginner balance progressions (from near to far):

1. Shaped rubber mats that are flat on the floor
2. Low profile Balance Beam
3. Precision Trainers in a beam configuration - leading to small gaps
4. Precision Trainers setup in a "stride" configuration

A raised balance progression from an 8" wide platform on top of a MultiCube to the top of the Trapezoid Vault.

The Balance Beam and Rail can be used to create advanced balance challenges appropriate for students with well developed sense of balance.

## Endless Play

The obstacles can be arranged in a limitless array of configurations to create challenges and opportunities for learning a variety of movements and attributes such as confidence, and setup to play an infinite number of games, including the classic 'ground is lava'. Story based challenges engage children and make physical activity fun!

## Parts Description / Detail

Parts are not shown with full detail in renderings.

### 48" Long 22" Tall Vault

- Durable Cabinet Quality Plywood Construction
- 4 Rubber Feet for non-skid stability
- Dual Internal Rail connector fittings

### About American Parkour

American Parkour (APK) was founded in 2005. A leader in spreading the discipline of Parkour, APK is run on the values of respect for self, the environment, and others. We opened the first Parkour gym in the world in 2006. Since then, APK Academy has grown to include 6 affiliates nationwide, and has certified approximately 90 instructors around the globe. We have successfully placed Parkour in DC Public Schools with active programs in 27 middle schools and in Carroll County Maryland in 4 Schools. Our ongoing commitment to creating a positive change through parkour drives us to constantly improve our curriculum and offerings.
